- Material Procurement & Expediting

TECHNICAL SERVICES

- Close Interval Surveys
- Direct Current Voltage Gradient
- Alternating Current Voltage Surveys
- Soil Resistivity
- Depth of Cover Surveys
- DC Interference Testing
- AC Interference Testing
- Inspection Services

OUR EXPERTISE

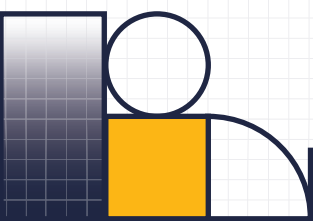

NACC professionals have the knowledge and expertise that comes from working in the pipeline and utility industry. Our staff has previously worked for construction companies, pipeline operators, and gas utilities. This blend of experience sets the NACC team apart from our competition. We have managed the design, maintenance, and operations of gas transmission and distribution systems. Our team appreciates the operational, regulatory, and community outreach aspects of these programs.

THE NACC ADVANTAGE

NACC Construction LLC is a minority-owned business and a certified National Minority Supplier Development Council provider. We have decades of experience in the design, construction and operations in the oil, gas and utility industries. Our mission is to provide exceptional construction and construction management services to value minded clients. Safe operations, quality construction, and customer service are the foundation of our operation.

INTEGRITY & SUSTAINABILITY

We believe there is a better way to complete construction projects with integrity and sustainability. This means no shortcuts and open communication with clients throughout the entirety of the project, all while ensuring the highest standards for the safety of workers and the community, and especially the environment.

We are a construction company that is passionate about providing results for our clients, growth opportunities for our team, and care for our communities and environment.

SAFETY

We place the utmost importance on the safety of the client, our crew, and the surrounding community. That is why every project starts and ends with safety in mind.

COMMUNITY

By considering our impact on the community and the environment, we uplift the future of both. Through outreach, we support STEM education initiatives that create opportunities for under-served and female students.
